

450SE V2

INSTRUCTION MANUAL

Thank you very much for buying a COPTER X 450SE version 2 RC product. In order to be able to use this product safely, please read this manual before flying the helicopter. Please fly the helicopter safely observing all rules and manners after having fully understood the flight precautions, the unit's capabilities, and the best way to fly it. Be sure to retain the manual for future reference, routine maintenance, and tuning.

IMPORTANT NOTES

- This helicopter is recommended for skilled intermediates and advanced RC helicopter flyers.
- Make sure to read and follow all the instructions in this manual, including all accessories.
- Should any problems arise, please confirm with an experienced RC helicopter personnel / instructor before introductory flight.
- Always find an experienced and / or qualified personnel / instructor for per flight inspection.
- Make sure flight vicinity is in an open space; free of crowds, obstacles, and buildings. Failure to abide may cause accidental and potentially hazardous encounters.
- Introductory flight should incorporate only the basic maneuvers (hovering, linear movements), until stick feel is mastered.

SAFETY NOTES

Locate an appropriate location :

R/C helicopters fly at very high speeds, thus posing a certain degree of danger. Choose an appropriate location. A clear large room such as a Gymnasium, basketball court, warehouse. Do not fly the model on residential or commercial places such as near houses or buildings. Do not fly near electrical poles or high voltage cables that may cause radio interference. Do not fly model on inclement weather such as rain, wind if snow.

Acquire the assistance of an experience pilot:

Before starting up the model it is best that it is checked by someone that is experienced with this models, Parts checking prior flight is mandatory. On the flying field before actual power up of model and transmitter make sure the no other pilots have the same frequency. Frequency interference can cause your model and other model of same frequency to crash.

For first time pilots its highly recommended that you use a simulator (Computer based flight simulator) for enhancement of flight skills

Aware of moving parts:

During actual operation of the helicopter, the main rotor blades will be spinning at a very high rate of speed. The blades are capable of imposing serious bodily injury and damage to the environment. Be careful on body parts such as hand, eyes, arms. Also be cautious of loose clothing, can be sucked up by the rotating blades.

Do not turn your away you eyes when the model is turned on or in use. Never leave the model unattended. Immediately turn off the model and transmitter after use.

PREVENT MOISTURE

R/C models are composed of many precision electrical components that is sensitive to moisture and water. Keep away from water sources or moisture related places.

The introduction of moisture in any form can seriously damage the electrical parts of the model that can cause malfunction and premature flight patterns.

KEEP AWAY FROM HEAT

R/C models are made of some parts plastic.

Make sure to store the model away from heat producing appliances such as heaters or stoves. It is best to keep the model indoors in a controlled cool environment with ambient room temperature.

RADIO TRANSMITTER AND ELECTRONIC EQUIPMENT REQUIRED FOR ASSEMBLY

Transmitter
(6-channel, helicopter system)

Receiver
(6-channel, or more)

9g Micro Servo x 3 pcs.
5g Micro Servo x 1 pcv

Gyro

TOOL REQUIRED FOR ASSEMBLY

SCISSORS

CUTER BLADE

LIQUID THREAD LOCK

CA GLUE

BALL LINK PLIERS

PITCH GAUGE

Liquid
Thread
lock

Cyano
acrylate
(CA)

NOTE: The following marks will be seen on the pages of this instruction manual. This designates location and contact points that needs application of adhesive. Liquid thread lock are usually used on metal to metal contact screws normally with fine pitch threading. For Metal to plastic CA can be applied screws designated as force threading or self tapping.

Parts List

No.	Parts #	Description	Specification	No.	Parts #	Description	Specification
1	CX450-01-21	Metal Rotor Housing	17x37x5x11mm	7	CX450-01-03	Bearing	ø2xø5x2.5mm
2	CX450-01-03	Flybar Seesaw Holder	36x15x6x6mm	8	CX450-01-04	Linkage Ball	ø4.75
3	CX450-01-03	Collar Bearing	ø2xø5x6x2.3mm	9	CX450-01-04	Machine screw	M2x6.5mm
4	CX450-01-03	Collar screw	M2 x 7mm	10	CX450-01-04	Washer	ø2xø3.8x0.5mm
5	CX450-01-01	Pin	ø 1.5x18.7mm	11	CX450-01-04	Collar Screw	M2X8mm
6	CX450-01-04	Mixing lever arm	31.15x5.5mm	12		Washer	ø2xø3.8x0.2mm

MAIN ROTOR INSTALLATION

Parts List							
No.	Parts #	Description	Specification	No.	Parts #	Description	Specification
13	CX450-01-22	Metal main rotor holder	17x37.5x11mm	26	CX450-01-05	Metal Flybar control lever	31.4x2.5.5mm
14	CX450-01-22	Bearing	ø4xø8x3mm	27	CX450-01-05	Washout Linkage	
15	CX450-01-22	Linkage ball	ø4.75	28	CX450-01-05	Collar Screw	M1.4x6.5mm
16	CX450-01-22	Machine screw	M2 x 6.5mm	29	CX450-01-05	Bearing	ø2xø5x2.5mm

23	CX450-03-08	Aluminum washer	ø2xø5x2mm				

Parts List

No.	Parts #	Description	Specification	No.	Parts #	Description	Specification
1	CX450-05-03	Main drive gear	150T	5	CX450-05-03	Autorotation tail drive gear	106T
2	CX450-05-03	Shaft ring	$\varnothing 8 \times \varnothing 6 \times 1.5 \text{mm}$	6	CX450-05-03	Main Gear Case	M2x12
3	CX450-05-03	One Way bearing	$\varnothing 6 \times \varnothing 10 \times 12 \text{mm}$	7	CX450-05-03	Socket screw	M2x12
4	CX450-05-03	Autorotation sleeve	$\varnothing 6 \times \varnothing 5 \times 21.5 \text{mm}$	8	CX450-05-03	nut	M2

Align Hole on the autorotation sleeve with the bottom gear with a precision tool. Insert the M2x12mm screw and tighten with nut

Tighten the collar on the shaft make sure no movement on the shaft

Set Backlash to at least 0.05mm distance..

Parts List

No.	Parts #	Description	Specification	No.	Parts #	Description	Specification
1	CX450-04-01	Bump resistant Skid	-	4	CX450-04-02	Antenna holder	ø3x330mm
2	CX450-04-02	Skid Pipe	Aluminum blue	5	CX450-04-03	Landing skid nut	ø8.5ø5x10mm
3	CX450-04-02	Skid Pipe end cap	-	6	CX450-03-06	Self tapping screw	M2x8mm

TAIL CASE ASSEMBLY

Parts List							
No.	Parts #	Description	Specification	No.	Parts #	Description	Specification
1	CX450-06-02	Tail rotor blade	-	14	CX450-02-01	Control arm holder	11 x 22mm
